12th grade (BY) MTF Subject Area Key and Cross-Time Index 1976-2020

June 7, 2021

BY Cross-Time Index of Questionnaire Items, 1976-2020

The cross-time index is a listing of MTF variables from 1976-2020. The cross-time index is organized first by **Subject Area**. Within each Subject Area, questions are listed in numerical sequence by **Item Reference Number (IRN)**, which is the unique identifier assigned to each question in the MTF study. Using the Subject Area Key, below, locate the code for an area of interest and then search the cross-time index for this code. For example, "A01a" is the Subject Area code for "Number of uses in lifetime" under the major heading of A01 "Use of Various Licit and Illicit Drugs". Using the Subject Area Key can help focus your search to variables of interest.

Subject Area Key 2020

Using the Cross-time Index

Once you have located a **Subject Area** of interest using the Subject Area Key, the Cross-Time Index can be used to find specific variables. All variables that are related to a particular subject area are grouped under each subject area heading. For example, #X DRNK/LIFETIME is the **Item Name (abbreviated)** of a variable and is located under A01 "Use of Various Licit and Illicit Drugs" and then A01a. Drugs. Number of uses in lifetime.

Using the Cross-Time Index, you will find important variable information such as **I**tem **R**eference **N**umber (IRN) (or Item Number), the form(s) the variable is located on, and the first/last year the variable was asked in the MTF study.

Note: We encourage you to include Subject Area and IRN for your variables of interest when preparing your Preliminary and Final Applications. The IRN **must be included** for each variable requested in your Final Application.

Definition of Column Headings for the Cross-time Index

The definition of column headings for the cross-time index are given below, corresponding to the number indicated in the figure following this key.

1. **Subject Area**. This indicates the subject content areas.
2. **IRN**. Abbreviation for Item Reference Number (also referred to as Item Number);An identifier that is unique to a given question across all grades, ages, forms and years of the MTF study. The IRN can be used to search all documentation for information about a particular survey item.
3. **Item Name** (abbreviated). This is a brief description that characterizes the content of each question. The item name is also part of the variable label in the data files.
4. **Form**. This numeric value indicates on which form the question is located.
5. **First/Last Yr**. This indicates the first and last year the question was asked in the MTF study,respectively.
6. **Changes**. The year(s) listed in this column indicate if and when there was a change to the question stem, question or response options since the questions' initial introduction to the MTF study.
7. **Questionnaire Location by Year**. A location is provided for each year in which an item appeared in one of the MTF study's questionnaire forms. Each entry under a given year indicates the form in which the question appears, the section of that form, and the question number. For example, the questionnaire location, 1B05A, indicates the question appeared in Form 1, Section B, and was labeled as question 5a. Any special character (e.g. *, #, !) following the location typically indicates that there was a change to the wording and/or response options for the question in this particular year.
